WHAT DALLE 2 prompt to use to generate an image of a robot skunk standing like a human
USING ARTIST Goro Fujita WITH Cyberpunk STYLE

Here's a DALL-E 2 prompt you could use to generate an image of a robot skunk standing
like a human with cyberpunk style, using artist Goro Fujita:

CSS

 Copy code

```
Generate an image of a robot skunk standing upright like a human, wearing a cyberpu
```

You could modify this prompt further to better suit your needs or preferences. Remember
that the more detailed and specific your prompt is, the more likely it is that DALL-E 2 will
generate an image that meets your expectations.

Input- WHAT DALLE 2 prompt to use to generate an image of a robot skunk standing like a human USING ARTIST Goro Fujita WITH Cyberpunk STYLE

Output - Generate an image of a robot skunk standing upright like a human, wearing a cyberpunk-style outfit and surrounded by neon lights and futuristic buildings. The robot skunk should have metallic fur and glowing eyes, and should be holding a high-tech weapon in one hand. The overall style should be inspired by the artwork of Goro Fujita, with a focus on bold lines and bright, saturated colors. The background should be dark and moody, with a sense of danger and excitement.
